

Public Slack Bridge

Matrix.org provides a public free Slack bridge, which is free to use forever but comes with some limitations:

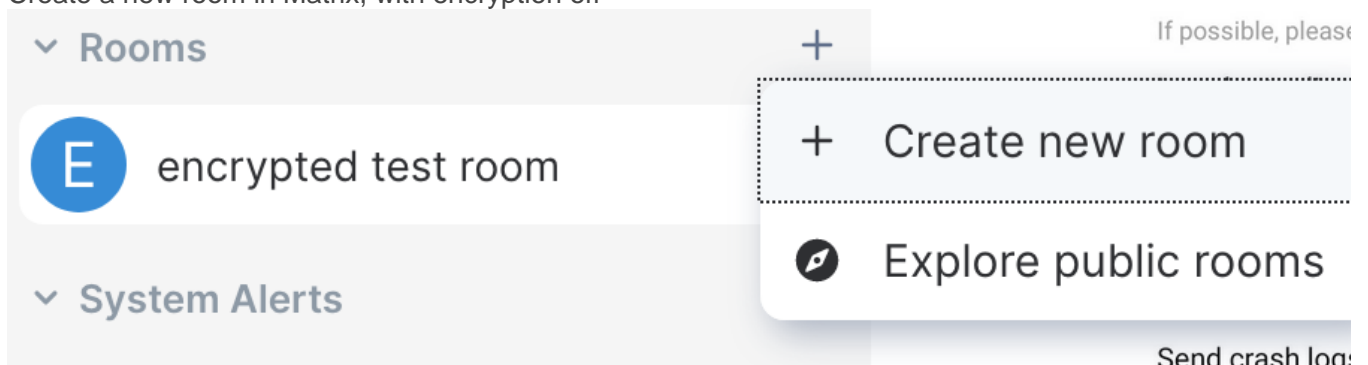

- You can bridge to an unlimited number of channels, but only public channels.
- You must bridge to a public room.
- Matrix users cannot puppet themselves, or Direct Message other users.

This guide explains how to use the free Slack bridge from the Matrix.org Integration Manager to integrate your Matrix room with a Slack room.

- An EMS server is not required.
- It requires your homeserver to be able to federate with Matrix.org.

Setup

1. Create a new room in Matrix, with encryption off

Create a private room

Name

Slack Demo

Topic (optional)

Make this room public

Private rooms can be found and joined by invitation only. Public rooms can be found and joined by anyone.

Enable end-to-end encryption

You can't disable this later. Bridges & most bots won't work yet.

Cancel

Create Room

2. Click **Room Info** in the top right corner of the room

Room Info

3. Click **Add widgets, bridges & bots**

About

1 person

Show files

Share room

Room settings

Widgets

Add widgets, bridges & bots

4. Choose **Slack** from the list of available bridges and integrations

Add integrations

 element matrix services

BRIDGES

IRC

Gitter

Slack

5. Click **Add Bridge**

NOTE if you have purchased your Slack bridge from EMS: Ensure it says **Slack integration on <your ems domain>** here.

This integration bridges a Slack channel into a Matrix room. Users in Matrix appear as bots in Slack.

Add Bridge

6. Click [Add to Slack](#)

Event Bridging

You need to log into Slack to view workspaces available to be bridged. Please sign in below.

Add to Slack

7. Enter your Slack workspace URL, and click [Continue](#)

Sign in to your workspace

Enter your workspace's Slack URL

Continue

Don't know your workspace URL? [Find your workspaces](#)

Looking to create a workspace instead? [Create a new workspace](#)

8. Enter your Slack email address and password, then click

Sign in to

.slack.com

Continue with Google

OR

Your Teams

[List Channels](#)
[Logout](#)

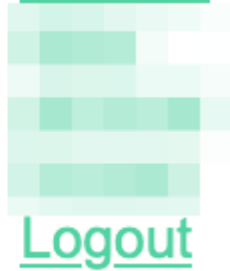

12. Click the Slack channel you want to bridge to the Matrix room

Your Teams

Click a channel to bridge it

[random](#)

13. Slack is now added to the Matrix room

Slack integration on matrix.org

This integration bridges a Slack channel into a Matrix room. Users in Matrix appear as bots in Slack.

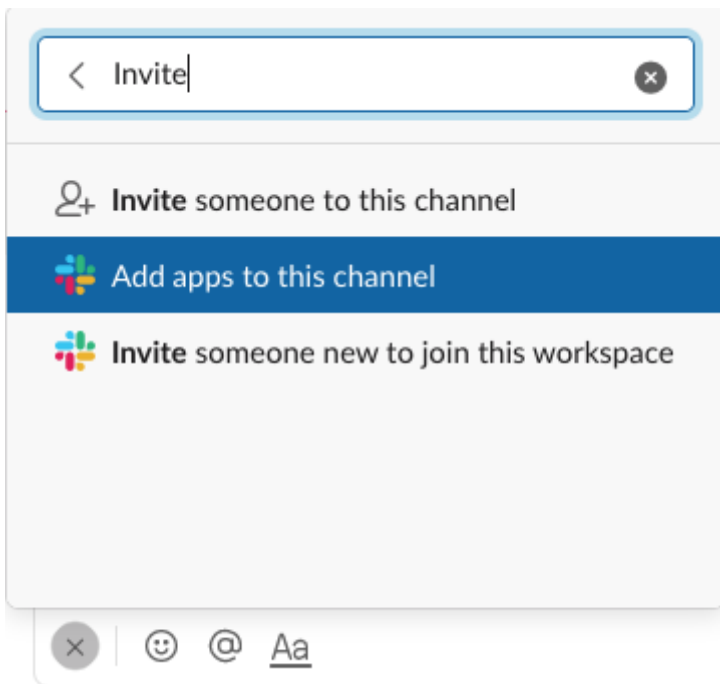

INFORMATION

Successfully linked with Slack! You can close this window.

This room is linked to **#random** using **events**. Ensure you have added the bot to your slack channel by sending `/invite @riot_bridge` into the channel.

Unlink Room

14. Go to the channel you selected on Slack, click the below the message box, enter , and select

15. Add the Element Bridge

In your workspace (1)

Element Bridge

Link your Slack channel to a room in Element

Add

Element Bridge APP 2:45 PM

was added to # [redacted] by [redacted]

16. The Matrix room and Slack channel are now bridged

Today

-  demo created and configured the room.
-  demo invited Slack Integration.
-  demo changed the power level of @slackbot:matrix.org from Default to Admin
-  Slack Integration joined, twily was invited, joined and changed their avatar
