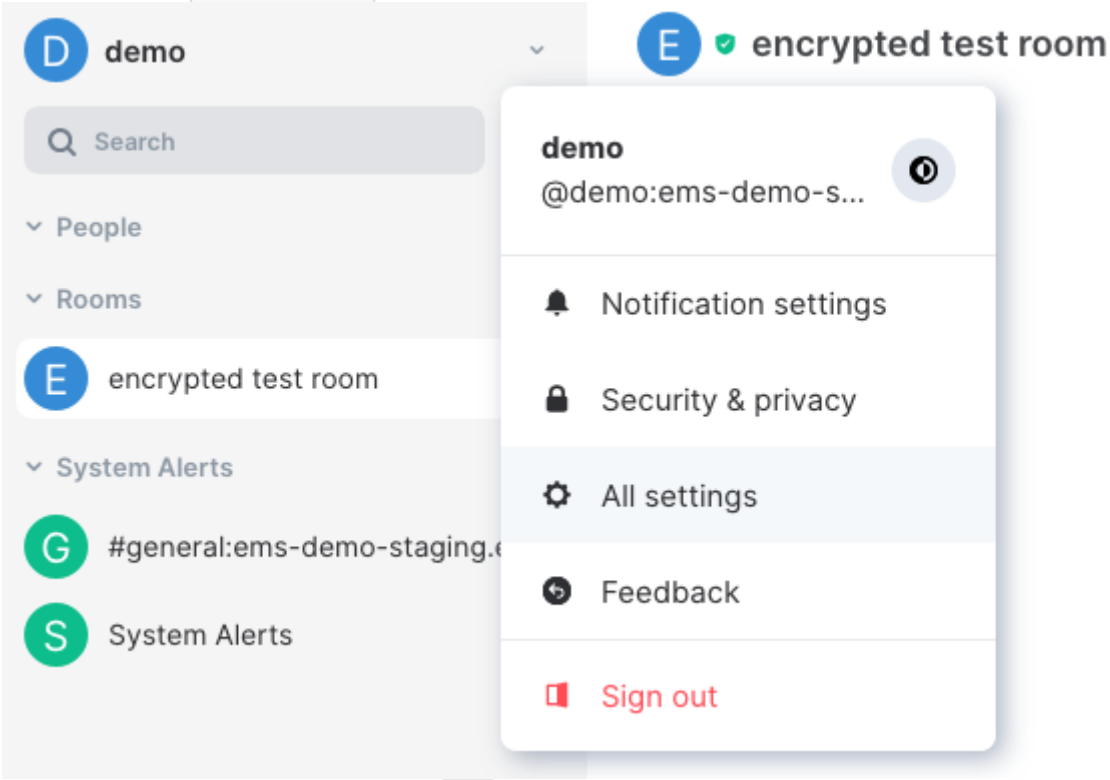
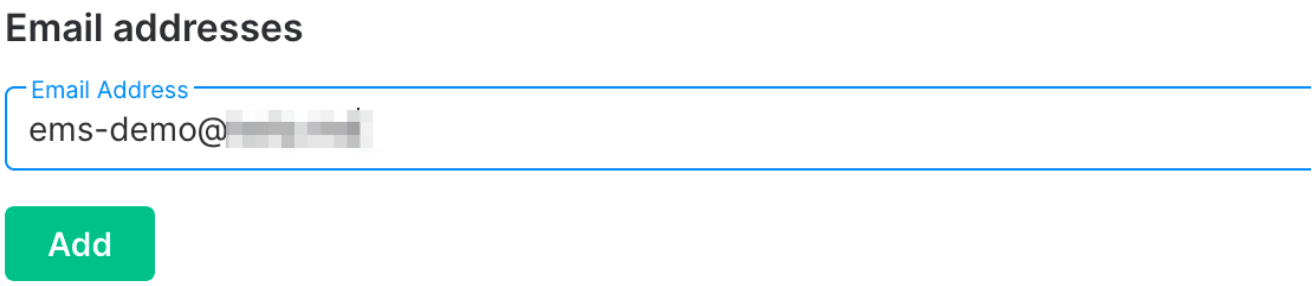
Add Email to Your Account

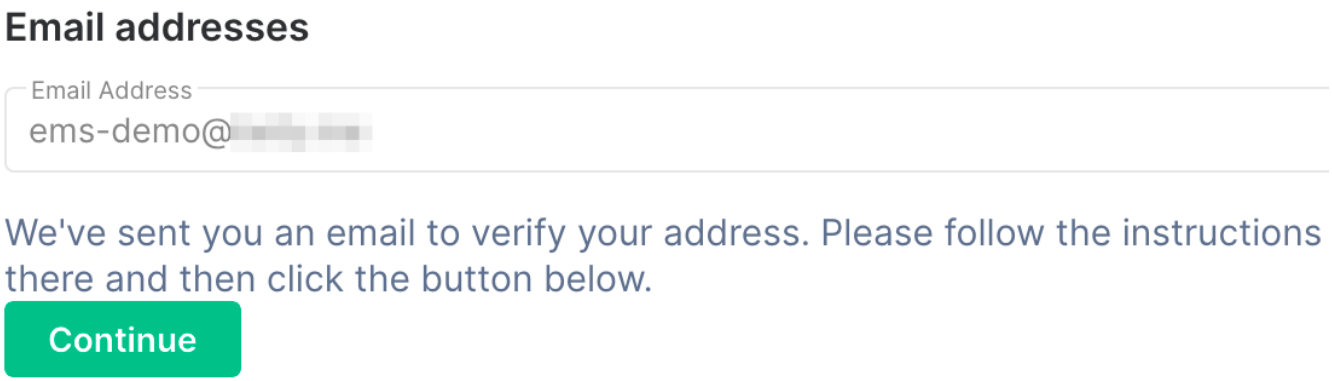
1. Go to Element `All settings`



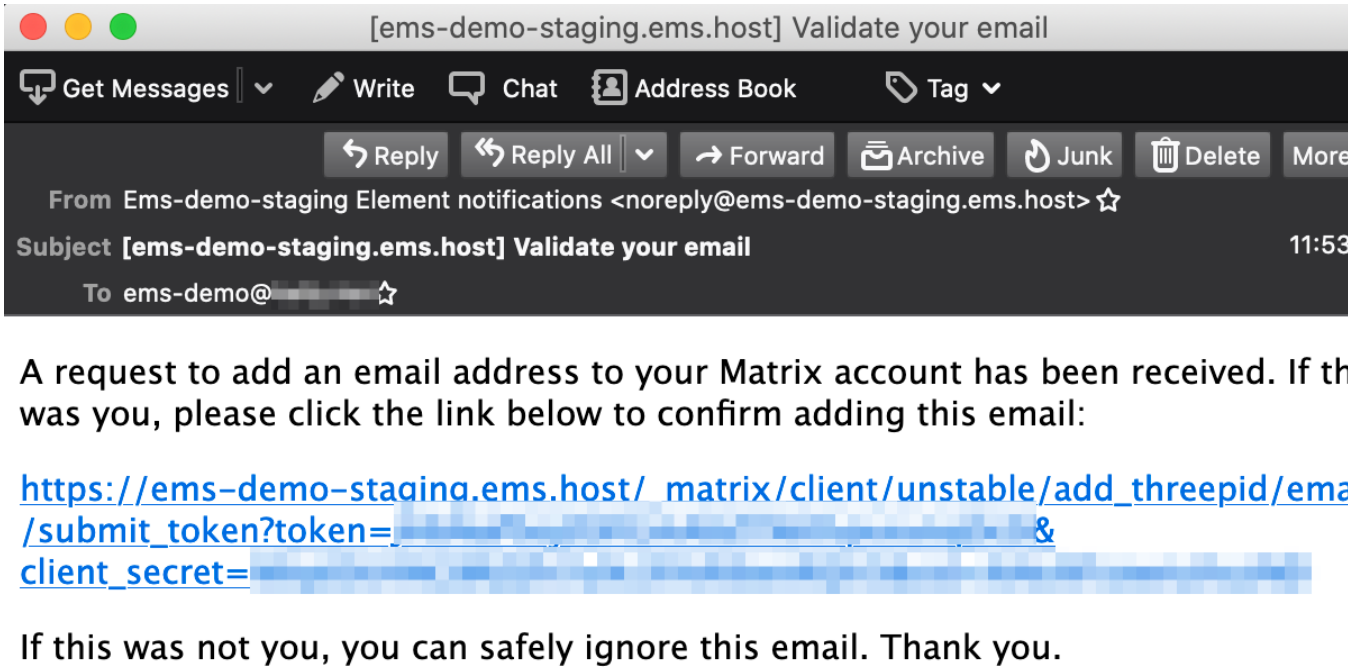
2. Enter your email address and click `Add`



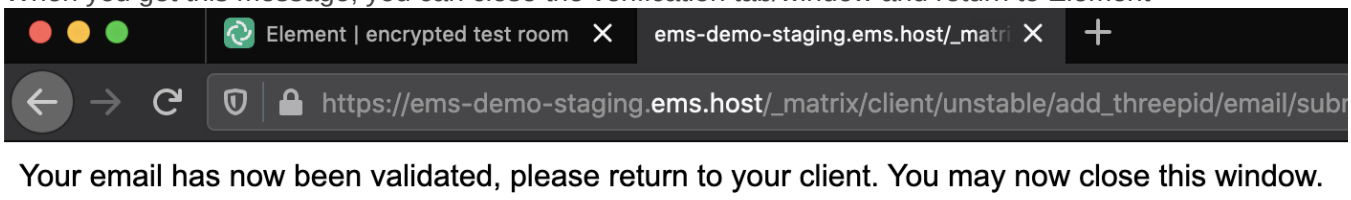
3. When you get this message, check your email



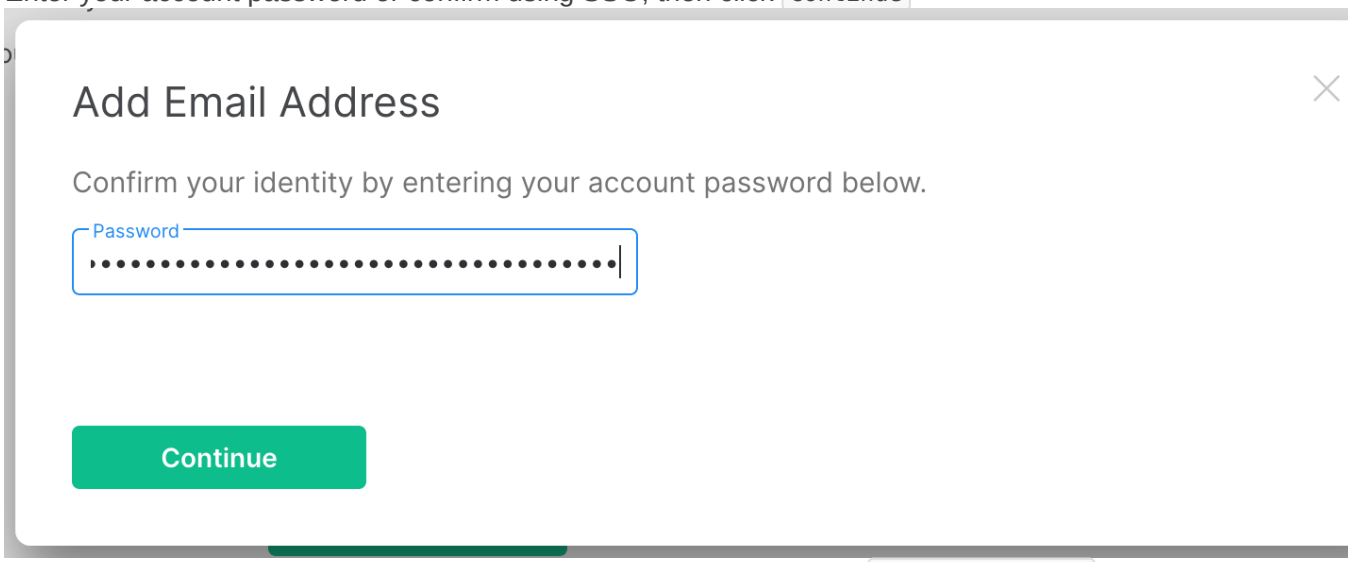
4. Click the link in the email. Make sure it opens in another tab/window, leaving your Element client where it is



5. When you get this message, you can close the verification tab/window and return to Element



6. Go back to Element and click `Continue`
7. Enter your account password or confirm using SSO, then click `Continue`



8. If all worked correctly, your new email should now show up under the `Email addresses` section in Element settings. If not, something went wrong and you need to try again
